

PX1000

ULTRAPATCH

Technical Specifications

Version 1.0 March 2003

ARCHITECTURE

The ULTRAPATCH PX1000 allows to patch the audio signals of most components in your studio from a central point and send them to other units, which makes your entire cabling better structured and is indispensable for professional work. If you want to use your studio as effectively as possible then it is preferable to use a complete patchbay wiring scheme, but even less sophisticated patchbay solutions will benefit smaller studio configurations.

With the BEHRINGER ULTRAPATCH PX1000 you will own an easy-to-use 48-point balanced patchbay offering fully balanced high-quality 1/4" TRS connectors. Each channel can be aligned in 5 different modes.

FEATURES

- ▲ Professional and multi-functional 48-point balanced patchbay for studio and stage applications
- ▲ Each channel can be aligned in 5 different modes, giving you highest possible flexibility
- ▲ Fully balanced high-quality 1/4" TRS connectors
- ▲ Super-rugged metal construction for long life and durability
- ▲ Manufactured under ISO9000 certified management system
