Sounds and rhythms for any repertoire

Now playing beautiful music can be for everyone. In fact, the new Technics SX-KN901 keyboard can help you play beautifully from the beginning. This incredibly simple-to-play instrument lets you choose from an impressive array of **200 preset sounds** created with Technics' own **Dynamic PCM**. They include a variety of acoustic instruments like piano, organ, strings and brass, and more contemporary instrument sounds like the distortion guitar. If that doesn't make it easy enough, there's even **100 preset rhythms** that cover a versatile range of music genres, from traditional styles like Euro Combo mixed with accordion sound to ever-popular patterns like U.S. Rock, Dance and Rap. You can even play variations of each. Of course, the SX-KN901 also incorporates **32-note**

polyphony and **initial touch-sensitive keys** to give your music that polished professional sound.

Superb sound controls at your command

Designed for maximum enjoyment and ease of use, the SX-KN901 offers plenty of exciting sound effect features you'll love to use. **Digital Reverb**, for example, lends hall-like acoustics to your music, while **Chorus** gives you more depth. For more contemporary effects, the SX-KN901 also provides **Phaser** and **Flanger** effects, plus **Pitch Bend** to generate more aggressive tones. There's also **Key Scaling** which offers nine presets ranging from Arabic to Slendro, and one user memory of your own scale setting. Use these to play all your favorite music styles from Baroque to ethnic repertoires from Asian to Middle Eastern. Now that's control.

**HELPING
YOU PLAY
BEAUTIFULLY
RIGHT FROM
THE START**

Just the way you like it

Create sounds and rhythms of your own through Technics' **Sound Edit** and **Composer** functions. Sound Edit features an easy edit mode that lets you easily change preprogrammed sound parameters, and the Composer allows you to change preprogrammed rhythms or create completely new ones from scratch. What's more, these sound-enhancing features can easily be accessed through the LCD window.

Want more rhythm patterns? Simply access the **Rhythm Patterns Disk** for extra rhythms stored on floppy disks. Moreover, the SX-KN901 conforms to SMF (Standard Midi File) Format 0 so you can take advantage of the wide range of patterns commercially available plus Sequencer and Composer data created with Technics SX-KN2000 and SX-KN1200 keyboards.

Accompaniments to match your playing style

This incredibly versatile keyboard can be tailored to your style of playing. By offering a full complement of professionally produced accompaniment patterns, plus **One Touch Play** for optimum panel settings (sound, tempo, accompaniment style) and **Auto Play Chord** for automatic chord accompaniment, you're assured of sophisticated sounding performances for any music. There's even **On Bass** mode, which automatically plays a melodic bass line accompaniment determined by the lowest note in any chord. And through **Sound Arranger**, you can easily customize any parts in the accompaniment pattern. In addition, the SX-KN901 features **Manual Sequence Pads** —

Manual Sequence Pads

exclusive to Technics' new keyboard series — that let you add various realtime phrase playback to your performance and instantly record them without using the sequencer. Finally, to store all these settings you can use the **Panel Memory**.

Music Data Storage

With all the beautiful music you'll be creating, you'll want to save your best performances. That's where Technics' **16-Track Sequencer** comes in. This handy function stores your music in realtime or step record.

And for permanently saving your music data (full band performances, edited sounds, original rhythms, etc.), you can use the built-in **3.5" FDD**.

SPECIFICATIONS

Keyboard		SX-KN901
Sound Generator		PCM
Maximum Polyphony		32
Sounds		200 sounds
Effects		digital effect, sustain,chorus/flanger, pitch bend
Digital Reverb		● (switchable to phaser)
Part Select		●
Conductor		right 1, right 2, left
Transpose		G-C-F#
Rhythm		100 patterns + 100 variations
Controls		main volume, balance, start/stop, intro & ending, fill in 1, 2, variation, count intro, synchro & break, tempo, split point, mute
Manual Sequence Pads		preset phrase: 11 banks x 3, user memory: 3 banks x 3, record/stop
Auto Play Chord		one finger, fingered, pianist, memory, on bass, music style arranger, sound arranger
One Touch Play		●
Auto Harmony		techni-chord (13 patterns)
Panel Memory		set, 1 - 5 x 2 banks
Sequencer	Track	16 tracks
	Storage Capacity	approx. 19,000 notes
	Input Mode	easy record, realtime record, step record (chord, rhythm)
Composer	Functions	sequencer clear, quantize
	Part	5 parts (bass, accomp 1, 2, 3, drums)
	Storage Capacity	approx. 8,600 notes
	Input Mode	realtime record
Functions		composer load, clear, percussion erase, mode select, bend range
Memory		2 banks x 10 (memory 1 - 6, intro, fill-in 1, 2, ending)
Disk Drive		3.5-inch disk drive for 2HD (1.44 MB), 2DD (720 KB) disk load (Technics, SMF format 0), disk save (Technics, SMF format 0), disk format, load single composer pattern, load single sound memory
Sound Menu		part setting, touch & tune, techni-chord type, left hold, reverb & phaser, chorus & flanger
Sound Edit		tone shuffle, octave shift, vibrato, auto bend, envelope, filter, digital effect memory: 36
Mode Set		initial, keyboard setup (foot switch setting, LCD contrast), key scaling, sequencer clear, sequencer quantize, track assign, medley play, MIDI setting (part setting, control message, other settings, presets, GM mode set, bulk dump)
Display		LCD (16 characters x 2 lines), exit, display hold
Demo		●
Terminals		phones, line out (R/R + L, L), foot sw, exp pedal, MIDI (IN/OUT/THRU)
Output		8W x 2
Speakers		12cm (4 ²³ / ₃₂ " x 2
Power Requirement		65W, 50W (North America and Mexico) AC120/220/240V 50/60Hz, AC120V 60Hz (North America and Mexico), AC230V 50/60Hz (New Zealand and Philippines), AC230-240V 50/60Hz (Europe)
Dimensions (W x H x D)		99.8 x 11.8 x 35.1 cm (39 ⁹ / ₃₂ x 4 ²¹ / ₃₂ x 13 ¹³ / ₁₆ "
Net Weight*		8.0 kg (17.6 lbs.)
Accessories		music stand, AC cord, rhythm patterns disk

*Without music stand and batteries
